11       @proj   blinky/pca10056/blank
12
13   @section    Procedure [1]
14
15       • Copy full directory of project [#7B60]
16
17       • Remove all .emSession files (e.g.
         blinky/pca10056/blank/ses/blinky_pca10056.emSession) [#8764]
18
19       • Open project (blinky.eww), remove all targets except selected (e.g.
         blinky_pca10056 - nrf52840_xxaa) [#4722]
20
21       • Remove mbr/ config [#5748]
22
23       • blinky_pca10056.emProject convert all paths to absolute [#EB08]
24
25       • update makefile to absolute (SDK_ROOT & PROJ_DIR) [#E9AB]
26
27       • update iar project files to absolute paths [#A79B]
28           main.xcl
29           blinky_pca10056.ewt
30           blinky_pca10056.ewp
31           blinky_pca10056.dep
32
33       • Clean, make & deploy!
34
