# Practicalities

- Duration: 50-60 mins
- Questions are encouraged!
- Please type questions in the top of the right sidebar
  - All questions are anonymous
  - Try to keep them relevant to the topic
- We will answer questions towards the end
- The chat is not anonymous, and should **not** be used for questions
- If you have more questions:
  - Go to DevZone for Nordic related questions
  - Go to [support.microbit.org](https://support.microbit.org) for help with BBC micro:bit
- A recording of the webinar will be available together with the presentation at [webinars.nordicsemi.com](https://webinars.nordicsemi.com)

**Inspiring every child to create  
their best digital future**

# BBC micro:bit

Versatile, programmable  
IoT device that is  
**designed for use in the  
classroom**

Available in 70 countries  
for ~£10 in volume

*Low floor, high ceiling*

***Designed by a coalition of  
29 partners! Including  
Nordic Semiconductor***

Easy to program, no  
installation or drivers

Simple wireless  
communication

Battery powered

Built-in motion sensors,  
instantly interactive

Hundreds of sensors and  
accessories

**x 5,000,000**

Display

5x5 LED Matrix

Touch and Input/Output Pins

(for connecting other  
components and sensors)

Push buttons

External Power supply

3.3V in or battery V out

Holes for banana plugs

Pads for crocodile clips

"Edge Connector"

Micro USB

Power and Programming

Reset Button

Antenna (Bluetooth & Custom  
2.4GHz radio)

Main Processor

Nordic nRF51822 on V1  
Nordic nRF52833 on V2

Magnetometer

Accelerometer

Battery connector  
(2xAAA)

Interface Processor  
Provides drag-and-drop

# Edge Connector

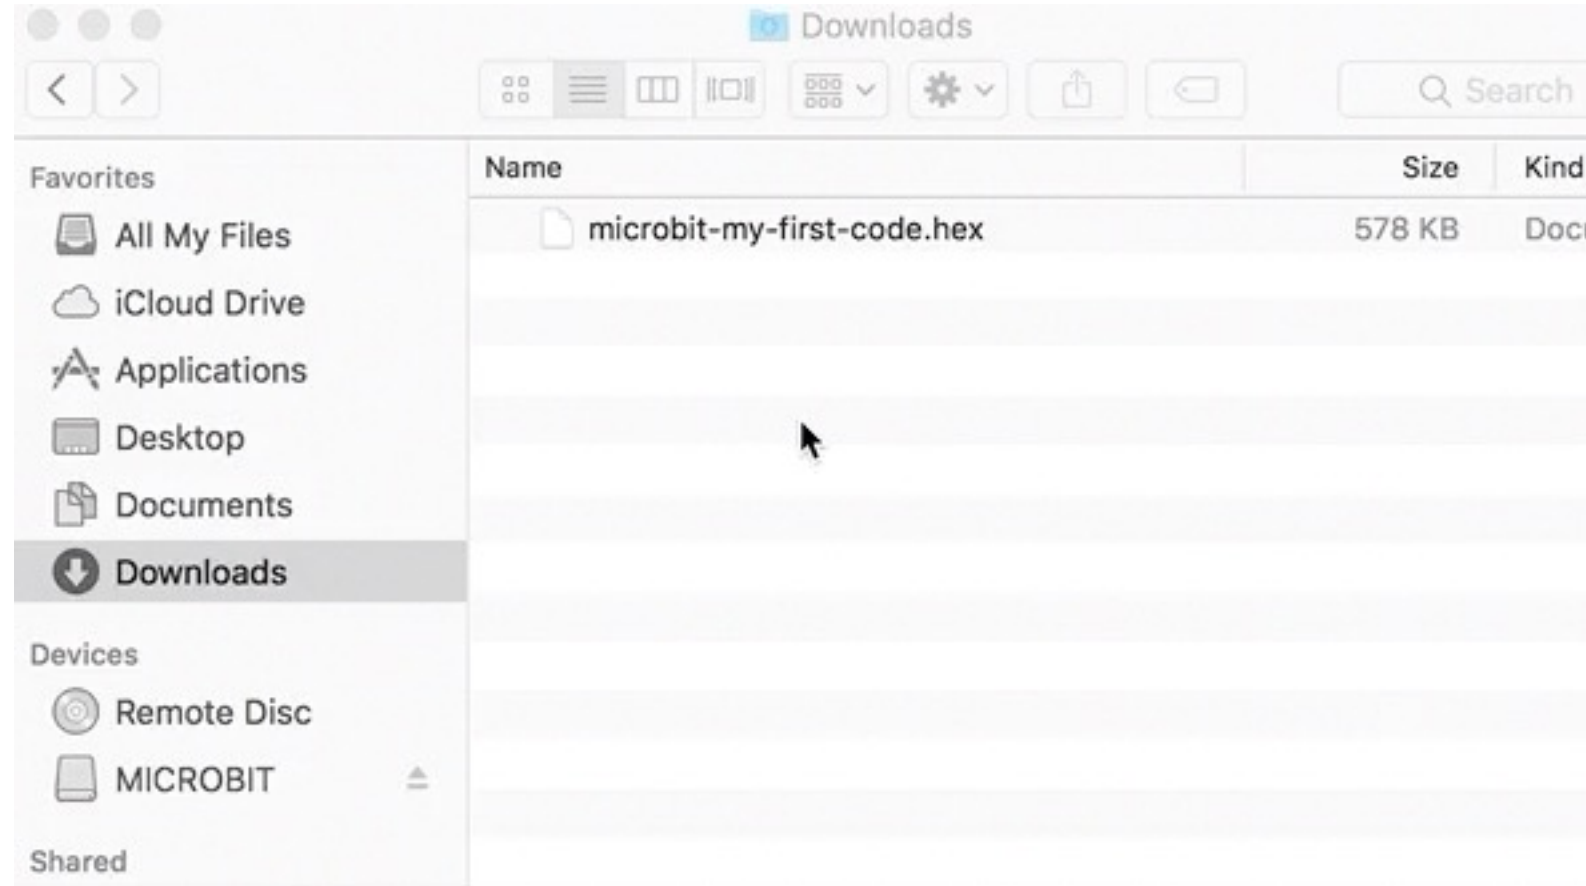

Enables a huge ecosystem of accessories and extensions around the core micro:bit platform

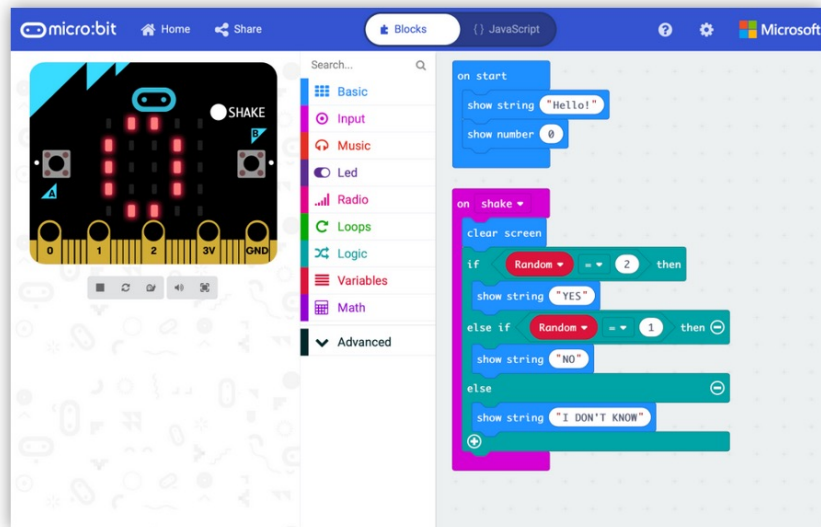

- Innovative
- Robust
- Adaptable
- Easy for kids to use
- Easy to adopt in hardware
- No fragile pins to bend
- No soldering

**micro:bit 'is a USB Drive'**

**micro:bit is a USB  
Drive**

## MakeCode Editor

The MakeCode editor provided by Microsoft makes it easy to program your micro:bit with blocks and JavaScript.

We have [recently updated the editor](#), and the [previous version is still available](#) for anyone that needs it. If you have any issues accessing the editor, check that it isn't [blocked](#) in your school.
